

**Thank you** for purchasing a **SCORPRO Explorer Box**, which we trust will help you to enjoy your wine as you enjoy the great outdoors. Your Explorer Box is designed to securely hold two Riedel Overture Magnum wine glasses, to help keep them safe while you're on the go, so you can enjoy your wine when you stop – wherever you stop.

### **Use and Care of your Explorer Box**

To securely hold your glasses, your Explorer Box has been designed to securely retain the lid – which means the lid can seem awkward to remove. Don't pull the lid straight up – lift the lid from one corner. Removal of the lid will become easier with use.

Your Explorer Box will help keep your wine glasses safe, but you need to help too.

- Your Explorer Box is designed to travel upright, so the glasses are standing inside.
- Your Explorer Box is rigid, rugged and strong, but it is not indestructible – it is not bomb-proof, bullet-proof, crush-proof or drop-proof. Please handle with care.
- Please stow your Explorer Box securely, so that it doesn't bounce, rattle or slide uncontrollably.
- The clean & smooth external surfaces have no hinges or catches, and will not wear your other precious belongings.
- Your Explorer Box is made from recyclable ABS plastic, which will remain strong at temperatures well over 100 degrees. It will not melt in boiling water, or deform in a hot car – but please don't leave it on the dash.

Your Explorer Box can survive a dish-washer, but the foam inserts may not. Instead, please wipe your Explorer Box with a damp cloth, using a mild detergent if necessary, and ensuring the interior is dry before storing.

## Why the Riedel Overture Magnum?

Riedel, the Wine Glass Company, are renowned for their quality glassware. This machine-made lead-free crystal wine glass is ideal for everyday use, surprisingly robust, with a shorter stem that provides better stability in a natural outdoor environment.

## Caring for your Riedel crystal

Washing by hand:

- Wash the glass under warm water (use detergent and rinse the glass carefully)
- Glass polishing: never hold the glass by the base to polish the bowl
- Stem snap occurs through mishandling = torque or bend pressure at the stem

For more care instructions please visit [www.riedel.com](http://www.riedel.com)

## What if I break a glass?

Accidents happen, and with even the greatest of care, a wine glass can crack, or break. The Riedel Overture Magnum is widely available from retailers across the country, both in stores and on-line.

For more information please visit [www.scorpro.com.au](http://www.scorpro.com.au)

Please keep this card inside your **SCORPRO** Explorer Box for care reference.

We use only recycled paper and vegetable based inks for printing. Proudly Australian made from recyclable plastic. Please enjoy alcohol responsibly.

## ENJOY YOUR WINE WITH A TOUCH OF GLASS.
